## Summary

Motivated cybersecurity graduate with solid knowledge of security principles, networking, and modern IT systems. Seeking to start a professional career in Cybersecurity while developing skills and contributing to secure environment.

## Education

**Tafila Technical University** • Tafila, Jordan

Bachelor Degree of Cyber Security

2021 - 2025

**Graduation Project: SCC APP – Secure Chat & Encryption Platform.**

- Applied **end-to-end encryption**, session validation and **4 encryption techniques**.
- Integrated Firebase authentication and analyzed **100+ logs** to identify security flaws.
- Developed a **secure chat system** with encrypted messaging and protected user sessions.

## Experience

**CrossRealms International** • Amman, Jordan • (Remote)

Penetration Tester Intern

July 2025 - September 2025

- Performed reconnaissance, exploitation, and vulnerability remediation on **3 intentionally vulnerable systems**.
- Conducted offensive security labs using **30+ Kali Linux tools** in VM environments (Kali Linux, Metasploitable 2/3).
- Implemented automation using **Hexstrike MCP** to speed up penetration testing and security analysis workflows.

**Jordan Data Systems** • Amman, Jordan • (On-Site)

IT & Network Intern

July 2024 - September 2024

- Provided technical support for **50+ client endpoints**, resolving OS, network, and hardware incidents.
- Assisted in configuring and maintaining **Aruba networking infrastructure**, improving network stability and uptime.
- Optimized **wireless access points** to improve network coverage and connectivity across a hotel environment.

## Certifications

**Google Cybersecurity**

March 2026

Google

**Cyber Associate** Certificate ID: 57

December 2025

World Cyber Security Club

**OCI 2025 AI Foundations Associate**

October 2025

Oracle

**Advanced Data Analytics**

June 2025

Correlation One Tech for Jobs

**GitHub Foundations**

October 2024

GitHub

## Skills

### Security & Networking

- Network Security Basics, TCP/IP, DNS, DHCP, Wireless Security, Incident Monitoring.
- Access Control, Vulnerability Assessment, Threat Detection, Log Analysis, Information Privacy.

### Systems & Tools

- Linux Administration & System Monitoring, Git & GitHub.
- Endpoint & Network Monitoring, CI/CD Basics.

### Programming, Data & Cryptography

- Security Data Analysis (Python, Excel, Tableau).
- SQL Fundamentals, Encryption Algorithms: AES, RSA, ChaCha20.

### Soft Skills

- Analytical Thinking, Problem Solving, Attention to Detail, Communication.
- Technical Documentation, Team Collaboration, Continuous Learning, Adaptability.

## Languages

**Arabic:** Native Speaker

**English:** Expert (C1)
